

SMOKE AND MIRRORS V

COMP134-07B GROUP PRESENTATIONS

Friday 19th October, 3:00-5:00pm

S-block, SG.01

For the last two months our 1st Year Software Engineering students have been working away—often to the wee small hours of the morning—on their group projects. On Friday, starting at 3pm, they will present their work and demo the software developed. The projects this year are:

- The Times, The Herald, They are a Changing
- TOM: The incredible Open-source Machine
- A Fixed Asset Management System
- And All That Jazz
- Bridging Brunel
- Car Alarm

If you want to learn more, you know the time and place.
Light refreshments provided!
